newest technologies in architectural lighting. Our products are focused on simplicity & convenience. Our aim is to offer human centric lighting that is based on visual comfort, seamless structure, natural color temperature alternative and smart controlled system.

Our devotion during these years to always produce seamless designs, quality and unique magnetic installations allowed our customers around the world to offer cutting edge products that made them highly competitive in their markets.

## Magnet Durability

The magnet we use is NdFeB rare-earth permanent magnet, it's the most powerful magnet on the earth. The model is N35, 3600 (+-10%) Gauss, Working temperature up to 80°C, Curie temperature is 240°C (failure at this temperature).

NdFeB N35 rare-earth permanent magnet,  
3600 (+-10%) Gauss

Excellent powder coating

## Perfect Surface treatment

The surface treatment offers perfect strong adhesion finishing to protect the fixtures from moisture. In addition, the strong corrosion resistance and good heat conduction and dissipations ensure the fixtures effectiveness. The coating is with special powder to ensure the flawless finishing.

## Research & Developments

We are constantly searching & testing technologies to offer the best natural lighting in our fixtures.

Thanks to the convenient structure our systems are used in various spaces from commercial to residential settings.

## TWO DESIGNS

Two sizes of magnetic system to fit all your spaces.

The 39 mm tracks offer lighting fixtures that have higher power & luminance to fit spaces with higher ceilings.

The 27.5 mm tracks are our newest slimmer editions offering seamless designs that look great in residential spaces.

**39mm**

**27.5mm**

Two input voltages:

**DC24V / DC48V**

Various Installations:

**surface/recessed/pendant**

- Black
- White
- Golden
- Black bronze

## Seamless connection
